"CAPS"

Taxus c. capitata seedlings are our specialty. We grow 2-yr. sdlg. of exceptional quality and price them accordingly. All our seed is imported from a source which assures us of the true up-right form.

grade	less than 1,000	less than 5,000	less than 25,000	over 25,000
2-4 inch	.05 ea.	.04 $\frac{1}{2}$ ea.	.04 ea.	.03 $\frac{1}{2}$ ea.

6 inch-up (hvy.)	.15 ea.	.12 $\frac{1}{2}$ ea.	--	--

The 2-4" size is ideal for fall starting in peat-pots; for growing on in deep frames or greenhouse benches. The 4-6" size will do well for fall or spring bedding-out. The 6 inch hvy. grade can be used for fall bedding; or spring close-row-liners.

Fall orders ready after Sept. 1st. For samples in advance, please send \$1.00 with request to cover our handling, etc.

SORRY - SORRY - SORRY

We list no B&B evergreen material at this time; as we are allowing our limited plantings to grow on to specimen size, (taxus only).

Also, we have discontinued growing roses; so we offer no list for Bare Root or Packaged. Since many of our customers enjoyed such fine success with our potted roses, we are planning on doing some rose potting for spring '63. This will only be done for those who make a firm committment for same. If interested in potted roses, arrangements for orders in variety must be made with us before February 1st. Prices, terms and other conditions furnished on request only.
